## OUR MISSION

We ensure that patients with terminal illnesses like cancer who come to Thiruvananthapuram Regional Cancer Centre, Medical College Hospital, Sree Chitraya Medical Centre and Avittam Thirunal Hospital for treatment get accommodation, food and a place to rest.

## ABOUT US

### Bidding Farewell to Hunger – A Place to Stay

On the 25th anniversary of the Metropolitan Health and Cancer Care Research Center, a new building is being constructed to provide free food and accommodation for 50 cancer patients and their caregivers.

Founded by Dr. K. Radhakrishnan in 1999, the center was created in response to the plight of poor patients forced to stay in hospital verandas without food or treatment. Supported by retired doctors, health workers, social activists, and leaders beyond caste, religion, or politics, it was launched under the Charitable Societies Act with support from key dignitaries.

For 24 years, the center has provided timely, quality care to cancer, kidney, heart, and liver patients—especially the poor, destitute, and orphans—through collaborations with leading hospitals in Thiruvananthapuram.

Let us join hands—there is no "us" and "them"; we are one.

## OUR SPECIALITIES

For the past 25 years, we have been providing medical care and support to the poor, helpless, and destitute cancer patients, heart patients, kidney and liver patients, those suffering from lifestyle diseases, bedridden patients, stroke patients, and others seeking treatment at Thiruvananthapuram Medical College Hospital, Regional Cancer Center, Sree Chitra Medical Center, and Sree Avittam Thirunal Hospital. This includes treatment, dialysis, and chemotherapy.

We are building a shelter to provide a touch of compassion and solace to the homeless who wander aimlessly, those who roam the streets without anyone showing them kindness, the helpless, and abandoned parents, siblings, and others.

## OUR SERVICES

We have been working for 25 years to provide free blood donation, proper food, clothing, essential blood tests, scanning, medicines, medical bed, wheelchair, water / air bed, surgical supplies, medical equipment, medical supplies, and accommodation to the patients and bring them back to a safe life.

# “Not just a place to stay a place to belong”

We provide different types of care based on each person's health needs and personal preferences. While we support your independent lifestyle, our flexible care plans include medical support and focus on comfort, dignity, and well-being. Our trained caregivers offer not only professional help but also genuine friendship, and we always work to keep our care standards high and keep improving.

HEALTH HOPE HUMANITY

## WHY CHOOSE US

HELPING THE HELPLESS CANCER PATIENTS WELFARE....

At RCC, Medical College Hospital, and Sri Chitra Medical Center, cancer patients are desperate for a place to rest after undergoing treatment, chemotherapy, and radiation. Many cannot afford to pay a high rent for a room for weeks of treatment. The goal is to provide state-of-the-art facilities to poor cancer patients and their caregivers. We request the help of well-wishers for this. 20 crores for the purchase of the property and construction of the building,

I respectfully request you to provide materials for the construction of this building complex, building construction assistance in the name of individuals, \* or institutions, or in the name of those who have left you, or in the name of those who have left you, in memory of them, or in their names, big and small, to complete the construction of the building. When you participate in the fundraising for this building complex, which is being built entirely for cancer patients, \* the homeless and other patients, you can ensure that it reaches the right people, and you can be proud to be a part of a great charity... Along with free meals for patients, rehabilitation until recovery, and palliative care for the elderly are ensured.

## Cooperate... Help... Be happy.
